WORK EXPERIENCE

Software Studio Co-Founder | App Flow Creations

June 2025 - Present

- Co-founded a tech consultancy focused on developing innovative mobile solutions, websites, and network systems for a diverse client base.
- Managed the end-to-end project lifecycle for 4+ client websites, from initial consultation and requirements gathering to design, development, and deployment.
- Delivered custom web solutions for clients in various sectors, including healthcare (orthopedics, urgent care), food service (dessert cafes), and B2B (tech distributors).

Software Engineering Intern | EasyMeets

June 2024 - Aug. 2024

- Developed a React-based administrator dashboard featuring user management tools, data visualization charts to streamline the handling of key company data like user activity and
- Designed and implemented RESTful API endpoints using Supabase Functions and PostgreSQL for CRUD Operations, ensuring seamless data interaction with the frontend.
- Managed database schemas and wrote efficient PostgreSQL queries within Supabase to support new administrative features and reporting capabilities.
- Collaborated within an Agile development team, participating in code reviews and daily stand-ups, contributing to the successful delivery of the new administrator tools.

Information Technology Technician | CUNY College of Staten Island

Feb. 2024 – June 2024

- Assisted faculty with computer use, software, and peripheral equipment (printers and scanners)
- Worked in a team to perform troubleshooting tasks and resolved web application issues
- Prepared equipment for student and staff use according to CUNY standards

TECHNICAL PROJECTS

Full-Stack E-Commerce Platform | MTech Distributor (Freelance) ([Website](#)) ([Github](#))

Summer 2025

Developed a complete B2B e-commerce solution, featuring a Next.js storefront and a Node.js admin dashboard to manage orders, inventory, and fulfillment.

- Built and launched a customer-facing website and an internal admin panel that automated the entire sales and shipping lifecycle.
- Automated key business operations by integrating FedEx and Shippo APIs for shipping logistics and the Dejavoo API for secure payment processing, significantly improving operational efficiency.

Tech Stack: Next.js, TypeScript, Node.js, PostgreSQL, Sanity CRM, Tailwind CSS, REST APIs (FedEx, Shippo, Dejavoo), Resend.

Full-Stack SEO Optimized Medical Website | Mountain Spine & Orthopedics (Freelance) ([Website](#)) ([Github](#))

Summer 2025

Developed and launched a comprehensive, modern, and user-friendly website for a leading orthopedic practice with 9 locations across Florida, focusing on patient engagement and acquisition.

- Engineered advanced SEO strategies and targeted marketing campaigns, successfully generating over 10 new patient cases monthly.
- Implemented secure contact forms, appointment scheduling systems, and location-based services to enhance patient convenience and streamline access to care.

Tech Stack: Next.js, TypeScript, Node.js, PostgreSQL, Supabase, Tailwind CSS, Resend.

Full Stack IOS App | Muslim American Society of Staten Island (Freelance) ([App Store](#)) ([Github](#))

Summer 2024 - Present

Led the development of a cross-platform community engagement app using React Native, Expo, and Supabase, successfully deployed on the iOS app store.

- Created personalized notification systems allowing 1,000+ active users to customize alerts and stay informed on events and activities, leading to increased engagement.
- Enhanced user experience through AI-generated lecture summaries and keynotes, promoting convenient, on-the-go learning.

Tech Stack: React Native, IOS, Expo, Supabase, Resend, PostgreSQL, ChatGPT API, AI
